

Life Success Institute is committed to protecting your privacy. Any information you provide is held in strictest confidence. We do not share the names of individuals, their phone numbers, or other personal information. However, for your convenience we have listed below the public company names of a few of our customers.

This is only a partial listing of the businesses and organizations that use our software. Please note that it does not include developers, individuals, or home-based businesses. Certain types of private practices are also omitted. Even so, this should give you a pretty good idea of the type and diversity of clientele we serve.

Several of our customers have had some nice things to say about our software as well. Their testimonials are appended at the end of the list.

"These files are deceptive in their apparent simplicity, but amazingly powerful and adaptive when you get into them. Your stuff is miles better than anything I've ever seen. Practical, clean solutions with professionally designed layouts and amazing attention to detail. I think you have shown what Filemaker can do and then some."

"This is one of the best looking, well thought out programs that I have seen. The interface is clean and simple and the entire program, with its many options, is extremely well designed."

"If you ever have anyone that wants a reference for Barcodet, please send them my way. I use software from a lot of different vendors, and yours is better than any of them."

"Barcodet is a truly incredible tool. In almost no time at all we had our FileMaker Pro database printing perfect bar codes every time."

"Our first bar-coded mailing went smoothly. Who would have thought it could be this easy?"

"Wonderful . . . Much magick is now being manifested from your work. Thanks!"

"Thank you very much for your help. I received the fonts, tested them, and they work perfectly."

"Very clever and impressive. Definitely the most elegant solution for generating barcodes."

"Wow, I just purchased your software - this is VERY extensive. I see a lot of development time went into your product."

"Thanks for being a life-saver. I received the bar code, had it installed within minutes, and had it integrated in no time."

"We have really enjoyed working with Barcodet! It has proven to be a valuable asset to our internal inventory control system."

"Using Barcodet we are now able to produce a fully automated shipping label with one keystroke."

"We've been printing bar codes flawlessly all afternoon. Thank you. Thank you. Thank you."

"Every month our products database spits out beautiful barcode reports. Exactly what we wanted."

"Ya he automatizado las barras de codigos en mi base de datos y esta funcionando todo perfectamente. Le agradezco mucho."

"Thanx and a tip o' th' hat for the files. They're pretty slick; nobody here has ever seen FileMaker do stuff like that."

"I have looked at so many bloated and complicated schedulers that when I found yours it felt like I had found the Holy Grail. It's great!"

"The update is really nice! I appreciate the new features [and] your help and responsiveness. A great solution!"

"Nicely done. Strictly from a customer-service perspective, a stunning case of rapid turn-around!"

"We are VERY pleased. We like the streamlined organization and the great gains in speed and responsiveness. It is by far the best experience we have had with any scheduling program."

"This is the "be all" and "end all" of scheduling programs. Not only is Schedules really easy to use, but it is also exceptionally powerful precisely when I need it to be. I simply love it!"

"I think you've really hit this one out of the park! There are all kinds of FileMaker calendar solutions out there, some good, some not so good. Yours does the job in a straight forward, business like fashion and I complement you on your user interface."

"Thank you very much for the wonderful application and thank you too for all your support."

"Your product is fantastic, and it is in the "must have" list."

"We use your program several times a week. Best thing since sliced bread."

"A beautiful and exceptionally well-engineered interface. I really like your design."

"Brilliant, absolutely brilliant. Really cool. I'm grinning from ear to ear."

"Congratulations on once again raising the bar. Beautiful interface. Excellent feature set."

"We are so impressed by your programme that we have faxed through an order form today."

"The best scheduling program ever, and the only one that can truly be called professional."

"Your program is elegant and works smoothly, which, in my opinion, is pretty rare these days."

"Thank you! Just when I think you can't possibly improve on your software, you go and do it!"

"The current version of your program passes the threshold test of being really cool."

"After a lot of comparison shopping, we found this to be the best deal anywhere."

"Thanks for your prompt order fulfillment and GREAT technical support!"

"Just installed the update. Thank you so much. It is wonderful!"

"I appreciate your efforts in providing us with this most useful tool."

"Thanks for all your help. This is a great product."

"Your support has been excellent... a true mark of customer service."

"This is absolutely the best investment we could have made."

"The new additions are great!"

"It works like a charm!"
